Quinti

“Ogni tanto qualcuno suona
alla porta di casa mia e dice:
“Sto cercando Franco Fontana...”
Vorrei rispondere:
“Ah sì, lo sto cercando anch’io”.

Every now and then someone
rings my doorbell and says:
“I’m looking for Franco Fontana...”
I’d like to reply:
“ Ah yes, I’m looking for him too”.

Franco Fontana

“Il design sostenibile è fatto di rispetto, responsabilità, conoscenza e ricerca, per una protezione attiva dell’ambiente”

“Eco-friendly design is made of commitment, responsibility, knowledge and research, for an active protection of the environment.”

“Le design durable est faite d’engagement, de responsabilité, de connaissance et de recherche, pour une protection active de l’environnement.”

Quinti promuove una progettazione intelligente dei suoi prodotti. Con il supporto dei progettisti e grazie alle competenze acquisite cerchiamo di minimizzare l’impatto complessivo di ogni nuovo prodotto sull’ambiente in ogni fase del suo ciclo di vita: dalla produzione alla spedizione, dall’utilizzo allo smaltimento. Ogni prodotto è pensato riducendo l’utilizzo di materie prime, semplificando la complessità produttiva e favorendo lo smontaggio e il riciclo dei componenti.

Quinti promotes an intelligent design of its products. With the support of the designers and thanks to the acquired skills we try to minimize the overall impact of each new product on the environment at every stage of its life cycle: from production to shipping, from use to disposal. Each product is designed by reducing the use of raw materials, simplifying the production complexity and encouraging the dismantling and recycling of components.

Quinti favorise une conception intelligente de ses produits. Grâce aux compétences acquises, nous cherchons à minimiser l’impact global de chaque nouveau produit sur l’environnement à quelque étape de son cycle de vie: de la production à la livraison, de l’utilisation à l’élimination des déchets. Chaque produit est pensé en réduisant l’utilisation de matières premières, en simplifiant la complexité de production et en favorisant le démontage et le recyclage des composants.

“Le politiche ambientali sono un impegno condiviso, alla ricerca dell’equilibrio fra utilizzo delle risorse e futuro possibile”

Environmental policies are shared commitment, to balance of use resources and possible future”

“Les politiques environnementales sont un engagement commun, à recherche de l’équilibre entre utilisation ressources et avenir possible”

Qualità dei prodotti e rispetto per l’ambiente sono pratiche consolidate e attestate dalla certificazione ISO 9001, ISO 14001 e ISO 45001. L’adozione dei Criteri Ambientali Minimi CAM favorisce la scelta di partner affidabili per lo sviluppo di un mercato di prodotti e servizi a ridotto impatto ambientale. Ultima in termini di certificazione è quella relativa al legno che sono certificati FSC (materiale utilizzato proviene prevalentemente da processi di riciclaggio). TUTTI I PRODOTTI QUINTI SONO CERTIFICATI IIM.

Product quality and respect for the environment are consolidated practices and certified by the ISO 9001, ISO 14001 and e ISO 45001. certification. The adoption of the Minimum CAM Environmental Criteria facilitates the choice of reliable partners for the development of a market of products and services with reduced environmental impact. Last in terms of certification is that relating to wood that are FSC certified (material used comes mainly from recycling processes). ALL QUINTI PRODUCTS ARE IIM CERTIFIED.

Qualité des produits et respect de l’environnement sont des pratiques consolidées et certifiées par les certifications ISO 9001, ISO 14001 et e ISO 45001. L’adoption des Critères Environnementaux Minimaux CAM favorise le choix de partenaires fiables pour le développement d’un marché de produits et services à impact environnemental réduit. La dernière certification est celle relative aux bois qui sont certifiés FSC (matériau utilisé provient principalement des processus de recyclage). TOUS LES PRODUITS QUINTI SONT CERTIFIÉS IIM.

Aventador

I braccioli in alluminio sono il fulcro della poltrona. Ad essi si ancora il meccanismo sincronizzato di ultima generazione e lo schienale in poliuretano a densità differenziata. The aluminium armrests are the crux of the armchair. They have included the synchronized mechanism and the polyurethane backrest with differentiated density. Les accoudoirs en aluminium sont au coeur du fauteuil. On y retrouve encore le mécanisme synchronisé et le dossier réalisé en polyuréthane densité différenciée.

La poltrona ospiti di Aventador rappresenta la capacità di rispondere ai sempre mutevoli cambiamenti degli spazi di lavoro con proposte funzionali e confortevoli. / The Aventador visitor chair represents the ability to respond to ever-changing variations in workspaces with functional and comfortable proposals. / Le fauteuil visiteur Aventador représente la capacité de répondre aux modifications toujours changeants des espaces de travail avec des propositions fonctionnelles et confortables.

Deep Bio, la prima seduta Quinti realizzata in materiali ottenuti da fonti rinnovabili, garantisce un ridotto impatto ambientale.

L'attenzione per l'ambiente è un impegno reale che Quinti promuove in ogni ambito aziendale. Deep Bio è la prima seduta Quinti realizzata con l'innovativo materiale Plantura, un biopolimero ricavato da fonti rinnovabili completamente decomponibile e durevole nel tempo. Deep Bio è pratica e resistente e con le stesse proprietà termo-meccaniche delle sue sorelle in plastica tradizionale.

Attention to the environment is a real commitment that Quinti carries on in each of its business areas. Deep Bio is the first Quinti chair made of the innovative material Plantura, a biopolymer obtained from renewable sources that is fully compostable and time-lasting. Deep Bio is practical and resistant, and it has the same thermo-mechanical properties of its sisters made of traditional plastic.

Le soin pour l'environnement est un engagement réel que Quinti promeut dans son entreprise. Deep Bio est née regardant l'avenir, choisissant Plantura, un biopolymère produit à partir des sources renouvelables, entièrement compostable et durable. Deep Bio est pratique et résistante, dotée des mêmes caractéristiques de ses soeurs en plastique traditionnelle.
